Re: Indoor Air and Subslab Investigation  
89 Morris Street Property

Dear Mr. Austin:

Enclosed please a copy of the Vapor Intrusion Investigation report dated September 11, 2007 which was conducted at the above-referenced location by the United States Environmental Protection Agency (EPA).

At this time, EPA anticipates returning to the property later this month to complete the air sampling within the recently renovated portion of the building. A copy of that report will be forwarded to you upon completion of the work.

Yours truly,

  
Andrew L. Confortini, On-Scene Coordinator  
USEPA
